

Sway Community Speed Watch report as of 4/7/2019

Sway Parish Council website has a page devoted to Community SpeedWatch where many of the latest statistics are published, so this report should be read in conjunction with the web page at <http://www.sway-pc.gov.uk/csw> .

This month, one session was rained off so we operated 9 x 1 hour sessions, reporting 152 speeding vehicles to the police. One vehicle was recorded by SID at 50mph but it must have braked hard because SID's display showed it no higher than 48 mph.

Results from Sway's CSW activities in May 2019. 4 failed PNC checks - 1 no current owner and 3 no trace. 116 letter1 and 22 letter2 sent, plus 10 escalated for personal visits for multiple incidents.

The main stats for this month are:

Date	Time	Hrs	Location	Vehicles reported to Police	Total Vehicles passing	Maximum Speed	Number exceeding 35mph	%
13/5	08:00	1	Arnewood	32	133	42	33	25%
13/5	17:00	1	PitmoreS	40	142	50	46	32%
14/5	08:00	1	Durnstown	0	187	35	1	1%
14/5	17:00	1	Brighton	5	78	40	6	8%
15/5	08:00	1	PitmoreS	41	184	47	46	25%
15/5	17:00	1	Durnstown	2	284	38	1	0%
16/5	08:00	1	PitmoreN	0	159	34	0	0%
16/5	17:00	1	Arnewood	24	198	44	42	21%
17/5	08:00	1	PitmoreM	8	161	42	8	5%
Overall		9		152	1526	50	183	12%

Statistics since we began in 2014 can be viewed at <http://www.sway-pc.gov.uk/csw>

These charts show how the percentages of vehicles speeding at 35 mph or more have changed since we began collecting SID stats in July 2014.

The trend lines are 8 session rolling averages hopefully giving an indication of any improvement or otherwise in the the statistics.

Arnewood Bridge Road yielded 56 speeding vehicles over 2 hours and clearly needs some enforcement action.

Status RED

Durnstown continues to be one of our success stories with just 2 speeding vehicles recorded in 2 hours.

Traffic coming off the forest is now definitely slowing down more than it ever used to.

Status GREEN

Brighton Road was much the same as last month. 5 vehicles speeding is still too many for this road where pedestrians have to mix with traffic. However there has been significant improvement since we began so now seems a suitable time to change its status to

Status GREEN

Pitmore Lane South is now of very grave concern. In 2 hours, we recorded 81 speeding vehicles making this location even worse than Arnewood Bridge for speeding. It is abundantly clear that this location needs enforcement as does Arnewood Bridge.

Status RED

Pitmore Lane Middle was again quite calm.

Status GREEN

Pitmore Lane North had no speeding vehicles at all and is clearly another of our success stories. Hopefully motorists now realise that it is dangerous to exceed 30 mph with New Forest ponies and other animals wandering in or close to the road.

Status GREEN

Manchester Road is perceived to be a problem area by residents. Our 13 surveys there so far have recorded just thirteen motorists exceeding 35mph. However it may well be that 30 mph is too high a speed limit for the conditions.

Charts from website for those without internet access

Overall Speeding Trends. This does not take into account location. Trend lines are 20 session rolling averages. All the trend lines are now showing improvement. We would like them all to drop downwards further.

Trends in percentages of drivers obeying the 30 mph speed limit on each of the roads surveyed. Trend lines are 8 session rolling averages. Here we **do** want the lines to rise. It is clear that Pitmore Lane South is a problem area with numbers obeying the speed limit back where we began. This is clear evidence of the need for enforcement here.

Quite Interesting statistics since we began Community Speed Watch in April 2014.
